

# EPSRC 2023 Program

## Thursday August 24<sup>th</sup>

13.30- 13.40: Welcoming remarks, Dr. Oranges & Dr. Radtke (EPSRC Captain & President)

### **Session A : Burns & Cicatrisation**

**Keynote 1:** 13.40-13.50 Reto Wettstein “The role of the microbiome in the outcome of pressure injury defect reconstruction”

**Keynote 2:** 13.50-14.00 Giorgio Giatsidis “Restoring function: Challenges, Advances, and Opportunities in Skeletal Muscle Repair and Regeneration”

**Keynote 3:** 14.00-14.10 Bratislav Lipovy “Toxic epidermal necrolysis: insights of innovative research into modern clinical care”

Long presentations: 14.10-15.04 (4min each + 2min questions)

Meuwly Marie-Garance	Prevention of Burns in the Elderly: an Unknown but Necessary Theme
Justin Davis MD	The Use of Botox in the Prevention of Heterotopic Ossification in a Burn Model
Bartkova Julia	The epidemiology of pediatric burns in Burn Centre Brno, Czech Republic, 2005, 2022
Anja Imsirovic	The impact of Nexobrid in the treatment course in adults with partial thickness burns compared to standard of care: a systematic review
Hadlik M	A novel biological wound dressing based on perinatal tissues: in vivo experiment on porcine animal model
Tae Hwan Park M.D., Ph.D.	A Triple Combination Therapy Using 2-mm Punch Biopsy for the Treatment of Multifocal Keloids: A New Game Changer
Raska Filip	Skin and soft-tissue infection caused by epidemiologically relevant strains of Staphylococcus aureus in a porcine model. Our concept of development.
Shengzhou Shan	Spatial dynamic metabolomics of the epidermis during mechanical stretch-mediated tissue expansion
Dr. Ashutosh Shankhdhar	Efficacy of weekly intralesional cocktail regimen (5Fluorouracil Plus Triamcinolone Acetonide) vs Triamcinolone Acetonide alone for nonsurgical management of keloid.

**Coffee Break 15.05-15.30**

## **Session B : Translational research in plastic surgery, Adipose stem cells**

**Keynote 4:** 15.30-15.42 Dirk J. Schaefer “*Title to be announced*”

**Keynote 5:** 15.42-15.54 Summer E. Hanson “*Optimizing Adipose Stem Cell Therapy through Cell Supplemented Engineered Grafts*”

**Keynote 6:** 15.54-16.06 Susanna Kauhanen “*Adipose tissue derived stromal cells and clinical applications*”

*Long presentations : 16.06-17.06 (4min each + 2min questions)*

Zhiru Wei	Bone morphogenetic protein-7(BMP-7) attenuate endothelial-mesenchymal transition in lipedema microvascular endothelial cell
Jared E McSweeney	Assessing the Angiogenic Potential of Adipose Tissue Derivatives Using an In Vivo Arterio-Venous Flow-Through Chamber
Mathias Witt	A Nanofibrillar Collagen Matrix (Biobridge, Ñ) for Surgical Treatment of Secondary Lymphedema ,Ä First Experiences
K Kilian	Analysis of the (lymph) angiogenic potential of regenerative scaffolds and the influence of adipose-derived mesenchymal stem cells (ADSC) in a murine wound model
Wiktor Paskal	Genetically modified surgical flaps have improved survival ,Ä systematic review and metanalysis of preclinical studies
Maryana Teufelsbauer	Adipose-derived stromal cells for wound repair
Romain Schaller	Tissue Engineered Graft for Phalanx Construction in Children with Symbrachydactyly
Margot A. Maytain	Using adipose stem cell spheroids with fibrin hydrogel-assisted delivery for peripheral nerve repair: an experimental study
Thierry Tondou	Dermal Nipple-Areolar Complex Perfusion through Full Thickness Circumareolar Scars in bilateral Two-Stage Nipple Sparing Mastectomy: dynamic anatomical similarities in dermal neoangiogenesis in human clinical and porcine experimental results
Johannes Zeller	A novel inhibitor of C-reactive protein reduces rejection in a rat model of vascularized composite allotransplantation

**Keynote 7:** 17.10-17:22 Paul Cederna “*Cyborgs: Now is the time*”

**17.30: Welcoming and official opening of EPSRC 2023 Congress with the Authorities**

**18.00-18.30 Clarinet Concert:** Simon Lopez, winner of the “*Concours Prodiges*” - marvel contest

**Social evening 20.00**

## Friday August 25th

### Session C : Oncology

**Keynote 8:** 8.00-8.12 Jan Plock “*Pelvic Reconstruction of Oncologic Defects*”

**Keynote 9:** 8.12-24 Steffen Eisenhardt “*Translational research in sarcoma surgery – personalized reconstructive surgery and diagnostic strategies in the era of precision medicine*”

*Long presentations: 08.24-09.12 (4min each + 2min questions)*

Zhenzhen Wan	Suppressing the metastasis of Lymphangiosarcoma through Inhibition TGF- $\beta$ 1 canonical pathway in the chick embryo allantoic-membrane (CAM) model
Solange N. Walz	Melanoma of the Upper Limb and Shoulder: A Surveillance, Epidemiology, and End Results Analysis of Epidemiology and Survival 2000, 2019
Andreoli Stefano	High-Affinity Cu(I)-Chelator with Potential Anti-Tumorigenic Action, A Proof-of-Principle Experimental Study of Human H460 Tumors in the CAM Assay
D.D. Krijgh MD	Identifying risk factors and analyzing reconstructive outcomes in patients with lower extremity soft tissue sarcoma
Juan A. Viscardi, MD	Cutaneous Melanoma of the Lip: A SEER Analysis of Epidemiology and Survival Outcomes With Focus on Surgery and Other Treatment Options
Mohammed Amir Rais	Does Transdermal Topical Deferoxamine Improve Cutaneous Tissues Vascularity and Alleviates Head and Neck Radiation-induced Skin Fibrosis : Literature Review
Divva Aurelia Azhalisita Amelinda, MD	Partial phalloplasty after oncologic resection: A challenge for health centers in remote area of Indonesia
Zhen Yu Wong	Global Burden, Quality Of Care And Attributable Risk Factors Of Early-Onset Breast Cancer (EOBC): A Systematic Analysis for the Global Burden of Disease Study 2019

### Session D: Lymphatic Surgery

**Keynote 10:** 9.15-9.27 Johnson Chia-Shen Yang “*supermicrosurgical lymphaticovenous anastomosis for lymphedema treatment*”

**Keynote 11:** 9.27-09.39 Brian Gastman “*Use of fluorescent technology to enhance lymph node surgery*”

**Keynote 12:** 09.39-09.51 Al Hassanein “*Clinical prevention of lymphedema/basic translational novel gene-based targeted therapies for lymphedema*”

*Long presentations: 09.51-10.27 (4min each + 2min questions)*

Magistri S.	Multiple lymphatic-venous micro anastomosis in prevention of secondary lymphedema in melanoma patients underwent complete lymph node dissection
Martin Knoz	Functional comparison of constricted and non-constricted lymphatic vessels in LVA for cancer-related unilateral lower limb lymphedema
Samydstos, MD	Contrast-Enhanced Ultrasound with Microbubbles Is More Accurate than Indocyanine Green in Patients with Lymphedema
Ramin Shayan	Molecular correlation between Lymphoedema and lipoedema
Patrick A. Will	Lymphedema-associated fibroblasts are a TGF- $\beta$ 1 activated myofibroblast subpopulation related to fibrosis and stage progression in patients and a murine microsurgical model
Dorian Hobday	LYMPHA surgery in axillary node clearance

### **Coffee Break 10.30-10.50**

### **Session E: Breast – Autologous Reconstruction**

**Keynote 13:** 10.50-11.02 David Mathes “*Data Driven Optimization in Autologous Breast Reconstruction*”

**Keynote 14:** 11.02- 11.14: Pietro di Summa “*Microsurgical breast reconstruction: Guidelines to the ideal abdominal flap inset*”

*Long presentations: 11.14-12.20 (4min each + 2min questions)*

Krystle R. Tuano	Venous Thromboembolism after Deep Inferior Epigastric Perforator Flap Breast Reconstruction: Review of Outcomes After a Postoperative Prophylaxis Protocol
Federico Facchin MD, PhD	54 Consecutive Bilateral LAP Flaps for Breast Reconstruction: Refinements and Classification System
Marlie H. Fisher	The Impact of Insurance Status on Hospital Length Of Stay And Outcomes After Breast Reconstruction With DIEP Flaps
Ronnie L. Shammass, M.D.	A Multi-Institutional Analysis of a Textbook Outcome Among Patients Undergoing Microvascular Breast Reconstruction
Suat Morkuzu, K.	Robotic-Assisted Deep Inferior Epigastric Perforator (DIEP) Flap - RoboDIEP- Harvesting for Breast Reconstruction: A Systematic Review and Meta-Analysis of Techniques, Outcomes, and Complications.
Boran Tekdogan	Oncoplastic Reduction Mammoplasty: Systematic Review and Meta-Analysis of surgical outcomes and complications
Marlie H. Fisher	Abdominal donor site complications following breast reconstruction using the deep inferior epigastric perforator free flap: A multi-institutional multi-surgeon study
Saumya Mathews	Reconstruction of extended breast skin defects post-mastectomy: the Tata Memorial Hospital experience

Jerome Martineau, MD	Inferior gluteal artery perforator (IGAP) in autologous breast reconstruction: A proportional meta-analysis of surgical outcomes.
Langfeier Liu, BA	Grouped Analysis of DVT Prophylaxis in Breast Microsurgical Reconstruction
Taif Fawaz Al Nojaidi	Morbidity of the Donor Site and Complication Rates of Breast Reconstruction with Autologous Abdominal Flaps: A Systematic Review and Meta-Analysis

**Keynote 15:** 12:20-12.32 Kotaro Yoshimura “Radiation kills stem cells: Stem cells rescue irradiation disorders”

### **Lunch Break 12.35-13.30**

### **Session F: Breast – Prosthetic Reconstruction**

**Keynote 16:** 13.30-13.42 Michele Marrucia “Prepectoral breast reconstruction evolution and new indications”

**Keynote 17:** 13.42- 13.54: Brett T Phillips “Antibiotic Prophylaxis in Implant-Based Breast Reconstruction. What's the Evidence?”

*Long presentations: 13.54-14.42 (4min each + 2min questions)*

Anna Louise Norling	Explantation after pre- or subpectoral implant-based immediate breast-reconstruction, a retrospective study. Identification of risk factors.
Giorgio Berna	Immediate prepectoral reconstruction with wise pattern in nipple sparing mastectomy in large and ptotic breasts
Leskovar Jana	Link between tactile breast sensation and quality of life after nipple-sparing mastectomy and implant-based breast reconstruction
Nikhi P. Singh MD, MBA	Same Day Discharge Following Mastectomy with Immediate Tissue Expander Reconstruction
Leonard Knoedler	Racial Disparities in Surgical Outcomes after Mastectomy in Female Breast Cancer Patients
Iselin Saltvig	Effect of topical Tranexamic acid on seroma production after mastectomies - a study protocol Long Oral
Puck E Melse, MD	Verifying data completeness and accuracy in the Dutch Breast Implant Registry through an automated verification process
Hannah Trøstrup	Surgical accuracy- assessment of breast reconstruction types

### **Session G: Microsurgery / Orthoplastics**

**Keynote 18:** 14.42-14.54: Marco Innocenti “Orthoplastic (title to be confirmed)”

**Keynote 19:** 14.54-15.06 Justin M. Sacks “Past, Present and Future of Microvascular Anastomosis”

*Long presentations: 14.06-15.54 (4min each + 2min questions)*

Marco Morandi	What is the additional morbidity of double gastrocnemius muscle flap compared to a medial gastrocnemius flap in the orthoplastic reconstruction around the knee?
Matteo Scampa	Medial femoral condyle flap: A systematic review of applications and proportional meta-analysis of surgical outcomes.
Emile B. List	Patient-reported outcomes following free muscle flap coverage for therapy-resistant upper extremity neuropathic pain
Vladimir Mégevand	Versatility of the Peroneus Brevis muscle flap for distal leg and ankle defects: A systematic review
Toni Engmann	A Single-Center Analysis of Outcomes after Gastrocnemius Flap use in Lower Extremity Reconstruction
E.B. List	Does controlled gradually increased venous pressure exposure (dangling) of the lower leg after free flap reconstruction reduce partial flap loss? A multi-centre randomized controlled trial
Justin M. Sacks	Comparison of Patient outcomes and efficacy of microsurgeries performed by single surgeon versus co-surgeon
Arjun Nanda BA	Reverse Osteomyocutaneous Medial Tibia (ROMT) Flap for Complex Reconstruction: An Anatomic Study with Clinical Translation

**Coffee break 15.55-16.15**

**Session H: Gender affirming surgery**

**Keynote 20:** 16.15-16.27 William Kuzon “*Gender Affirming Care: Science vs. Politics*”

**Keynote 21:** 16.27-16.39 Justine Lee “*Longitudinal Outcomes in Facial Gender-Affirming Surgery.*”

*Long presentations: 16.39-17.21 (4min each + 2min questions)*

Daniel Leon	Enhanced recovery protocol decreases postoperative opioid use after penile inversion vaginoplasty
Gavin Raner	Exploring Binary and Non-binary Transgender Patient Experiences in Accessing Gender-Affirming Top Surgery
Katrina Jaszkul	Quality of Life Outcomes in Patients Undergoing Facial Gender Affirming Surgery Purpose
Tiffany Tse	Lifestyle habits and outcomes pre-and post-operatively in patients undergoing gender-affirming top surgery
Eva Kaufman	Does Obesity Affect the Outcomes of Female-to-Male Gender Affirming Chest Reconstruction?
Charles D Hwang	Reflected skin flap-graft technique for glansplasty in abdominal phalloplasty
Rakan Sadoun	Beyond the Operating Room: Exploring Gender Bias in Leadership Positions in German Plastic Surgery

**Photoshoot / General Assembly 17:30-18:30**

**Social Evening 20.00**

**Saturday August 26<sup>th</sup>**

**Session I: Head & Neck**

**Keynote 22:** 08.00-08.12 René Largo “Title do be announced”

**Keynote 23:** 8.12-8.24 Wenjin Wang “Perioral Inset of Vector for facial reanimation: A Three Subunit Strategy Based on Gross and Micro Anatomy”

*Long presentations: 08.24-09.54 (4min each + 2min questions)*

JIA ZHOU	Classification and surgical treatment methods for partial traumatic upper lip deformity
Eva Maria Risse	The Impact of Intraoperative Temperature on Hematoma and Estimated Blood Loss in Patients Undergoing Head and Neck Microsurgical Reconstruction
Zdenek Dvorak	Reconstructive algorithm for all three layers of the nose
Janina Kueper	Epidemiologic Features, Indicators, and Outcomes of Paediatric Craniofacial Fractures Resulting from Interpersonal Violence
Dr Ali Ather Azeem	Microsurgical Head & Neck reconstruction from scalp to neck
Shuang-Bai Zhou	A Strategy for Integrative Reconstruction of Midface Defects Using an Extended Forehead Flap
Shirley van de Velde	Palatal plate screening and respiratory difficulties in cleft palate repair in infants with robin sequence vs infants with an isolated cleft palate
Hussein Sara	Ai-integrated Health application for Wound Care: Global Cleft Care outreach programs in low and middle-income countries (LMICS)
Jose A. Foppiani, MD	Indications and Results of The Use of Facial Fat Grafting and Fillers in Complications of Cosmetic Facial Augmentation
Kubat Martin	Personalized inner lining flap design from 3D scan in nasal reconstruction.
Gaurang Bhatt	Patient-reported quality of life outcomes among COVID-19 associated Rhino-Orbital-Cerebral Mucormycosis (CAROCM) patients undergoing reconstruction with free flap surgery
L. Schiraldi, MD	Facial Fat Grafting (FFG): is it a safe procedure? A critical review of different complications of facial lipofilling.
Michael S. Hu, MD, MPH, MS	Tranexamic Acid (TXA) In Head and Neck Microvascular Free Flap Reconstruction: A Prospective Study
Hsu-Tang Cheng	The effect of preoperative blood glucose (POBG) level on postoperative length of stay (LOS) in head and neck cancer patients
Merel Hazewinkel	Towards a Mobile Application for Patient Screening in Headache Surgery

**Coffee Break 09.55-10.20**

## Session J: Body Contour & Aesthetics

**Keynote 24:** 10.20-10.32 Ken Stewart: “Otoplasty (title to be confirmed)”

**Keynote 25:** 10.32-10.44 Mathias Tresp “Outcome and Quality of Life After Preservation Rhinoplasty”

**Keynote 26:** 10.44-10.54 Dominik Duscher “HIF1 modulation to counteract hair loss and stimulate hair growth”

*Long presentations: 10.54-12.24 (4min each + 2min questions)*

Salvatore Giordano	Buttocks Volume Augmentation with Submuscular Implants with or without Fat Graft: a Comparative Study
Stefano L&#039;Erario	Inguinocrural dermolipectomy in post-bariatric patients, a retrospective study on outcomes
Wladyslaw Gawel MD, PhD	Social media as a tool for scaling revenue growth and visibility of aesthetic medicine clinics
Andrea Pagani, MD	A Novel Hair Restoration Technology Counteracts, Androgenic Hair Loss and Promotes Hair Growth in A Blinded Clinical Trial
David Zargarán	A UK mixed methods survey of individual adverse experiences post botulinum toxin injection
Christian Alexander Grochau	How to enhance your social media performance: a guide to success on Instagram.
Erick Zuniga Garza	Body contour in the postbariatric male patient
Alexander Zargarán	AesthetiSim: Design and evaluation of a metaverse game in aesthetic facial plastic surgery education
Dimitrios Asimakopoulos BA Hons	Cell-Assisted Lipotransfer in Breast Augmentation Surgery: Clinical Outcomes and Considerations for Future Research
Raphael Wenny	Endoscopic deep plane facelifting
André S. Alves	Reverse abdominoplasty for subcostal incisional hernia following nephrectomy in a patient with excess abdominal fat
Madeleine Landau	Body Dysmorphic Disorder in Individuals Requesting Cosmetic Surgery: A Systematic Review of Pre-Screening Tools
Isabel Zucal	Intraoperative 3D Comparison of Round and Anatomical Breast Implants: Dispelling a Myth
Davide Brucato, MD	Pyoderma Gangrenosum following reduction mammoplasty: systematic review of the literature
Darryl Addy	Representation of race and sex in Google Images of Rhinoplasty

## Lunch 12.25-13.30

### Session K: Hand surgery

**Keynote 27:** 13.30-13.42: Andrew Hart “*setting up a multidisciplinary hand loss service*”

**Keynote 28:** 13.42-13.52 Andreas Gohritz “*Nerve surgery to treat nerve pain and sensory loss*”

*Long presentations: 13.52-14.46 (4min each + 2min questions)*

David A. Brown, MD, PhD	Modulating digit regeneration with viral gene therapy
Moaath M Saggaf	Identifying Systemic Biomarkers that Predict Patient-Reported Outcomes Following Treatment for Carpometacarpal Arthritis Using Machine Learning
Eva-Maria Risse	Functional outcomes of complex hand fractures and pseudarthrosis reconstruction with additive low-dose pulsed ultrasound therapy (LIPUS) compared to the gold standard
Komal Saeed	Percutaneous Needle Aponeurotomy & Lipofilling ,Ä An emerging minimally invasive technique for Dupuytren's Contracture
Toni Engmann	The Impact of Age and Socioeconomic Status on Trigger Finger Surgical Disparities
Divva Aurelia Azhalisita Amelinda, MD	Digital replantation surgery: survival rates and challenges faced in Indonesian archipelago.
Bart van den Hurk, BSc.	Early outcomes after registration of finger implants in the Dutch arthroplasty register (LROI)
Michel M. Crick	The Efficacy of Motor Function Assessment: A Systematic Review Addressing Range of Motion Testing Following Nerve Transfers in Brachial Plexus Reconstruction
Syena Moltaji	Qualitative needs assessment for development of a smart thumb prosthetic

### Session L: Nerve Surgery and Basic Research

**Keynote 29:** 14.50-15.00 Greg Borschel *Local delivery of tacrolimus to enhance nerve regeneration*

**Keynote 30:** 15.00-15.10 Alison Snyder-Warwick, MD *Non-neuronal cells are implicated in neuroenhancing FK506 effects*

**Keynote 31:** 15.10-15.20 Sami Tuffaha *Recent advances in nerve surgery/functional reconstruction*

**Keynote 32:** 15.20– 15.30 Srinivas Madduri *Basic Research (title to be announced)*

*Long presentations: 15.30-17.06 (4min each + 2min questions)*

Karim Abd El-Ghany	Transparent tissue and ultramicroscopy enable the study of florescence throughout the whole nerve and muscle
--------------------	--

Lorenz Semmler	NMRT as additional treatment option for peripheal nerve injuries
Katya Remy	Reoperation Following Primary Greater Occipital Nerve Decompression Surgery: Incidence, Risk Factors and Outcomes
Branislav Kollar	Functional Outcome of Dual Reinnervation with Cross-Facial Nerve Graft and Masseteric Nerve Transfer for Facial Paralysis
Widya Adidharma, MD	Bidirectional Sensorimotor Signaling Using the Composite Regenerative Peripheral Nerve Interface (C-RPNI) in a rodent model
Dominik André-Lévigne	Hyperbaric oxygen treatment promotes axonal outgrowth
Flavia Millesi	NeuraGen, NeuroFlex and Reaxon inhibit cell migration and proliferation: a comparison of three approved synthetic nerve conduits
Ebai A Esemé, MD	Sensory Recovery of Neurotized Skin-grafted Gracilis Free Muscle Flaps for Lower Extremity Reconstruction
Niederhauser Camille	Outcome of late neurolysis on median and cubital nerve neu-ropathies: insights from a preliminary prospective study
Vlad Tereshenko	Proprioceptive feedback augmentation via a novel nerve transfer to a target muscle for natural prosthetic control
Raghav M. Upadhyaya M.S.E.	Bite Worse Than Their Bark? Pediatric Facial Nerve Injuries Secondary to Dog Bites
Weber Janick	Subjective quality of outcome (PROM = patient-reported outcome measures) of reinnervation and free muscle transfer in patients with facial nerve palsy using the FaCE questionnaire
Elena Millesi MD	Facial synkinesis grading scale: A novel grading system to determine facial synkinesis severity
Camille de Schoulepnikoff	The incidence and management of peripheral nerve injury in England (2005,2020)
Shahad Hani Abdu	Comparison of Oral versus intravenous steroid in the Management of Bell's Palsy: A systematic review and Meta-analysis of randomized clinical trials
Giulio J Jaber	Indocyanine green in the assessment of burn depth: review of the literature

### **Coffee Break 17.05-17.20**

#### **Session M: General Plastic Surgery**

**Keynote 33:** 17.20-17.30 Bong-Sung Kim “*The use of the a mechanically isolated SVF-methacrylated gelatin hydrogel for wound repair purposes*”

**Keynote 34:** 17.20-17.30 Rik Osinga “*Implant-Associated Infections: Current Orthoplastic Treatment Concepts and Future Innovations*”

*Short Oral Presentations: 17.30 – 18.44 (3min each + 1min question)*

Bhavana Thota	Assessment of Postoperative Symmetry Following Mandibular Reconstruction with Fibula Free Flap
Arjun Nanda BA	Free Flap Reconstruction with Split-thickness Skin Graft (STSG) from Cutaneous Paddle
Muhammad Umair Javed	Tuberous breast

Mohamed Ali Mahgoub	Gluteal fat transplant
Langfeier Liu, BA	Patient Decision-Making in Breast Reconstruction
Ahmad Abdelhady	Fournier Gangrene as a Life-Threatening Adverse Event in patients using Sodium-Glucose Cotransporter 2 Inhibitors. A case report and literature review
Toni Engmann	The effect of flow interventions on the surgeon or nurse level on operative times and cost
Alexandra Dena	Influence of adipose derived stromal cell transplantation on intraneural axon regeneration in a peroneal nerve injury model in the rat.
Jennifer Grauberger, MD	Diversity of Skin Tone in Google Images for Common Hand-Related Searches
Ebaa Sabri	Case report: Reverse homodigital dorsal radial flap for distal thumb reconstruction
Tim Kornfeld	Incidence of peripheral nerve injuries within the Federal Republic of Germany (2019-2022)
Alfonso Ivan Sanchez Teran	Radial forearm microvascular flap for tongue reconstruction after hemiglossectomy
Nawaf Alhindi	The management of perioperative pain in harvested costal cartilage graft for Craniofacial reconstruction: A systematic review and meta-analysis
A S Chaudry	Evaluating the Efficacy of Digital Technology Enhanced Learning (DTEL) in Teaching Breast Surgery to Medical Students in the Early Clinical Years: A Global Educational Evaluation
Tycher, John T. BS	Addressing Rising Healthcare Costs with Innovation: A Six-Year Institutional Experience in DIEP Flap Reconstruction
Yun Xie, Poh-Ching Tan	Repair of skin defects in the lower part of the nose after nevus resection using platelet-rich fibrin (PRF) clot
Dornseifer Ulf	Efficacy of postoperative epidural anesthesia following abdominoplasty
S.N. Schulz	Sensitized forehead flap for nasal reconstruction after extensive melanoma resection, a case report.

**Farewell party 20.00**
